Executive Summary:

Passionate Full Stack Engineer living in Dublin with expertise in both front-end and back-end technologies currently pursuing a degree in Computer Engineering. After completing a Full Stack Engineering course with Codecademy and another with Code institute, I have already built a diverse portfolio of projects showcasing my ability to build responsive and dynamic web applications. With strong communication skills attained from customer-facing roles, I thrive in collaborative environments and enjoy solving complex problems. Eager to bring my coding knowledge and enthusiasm to a new role, where I can continue growing and contributing to innovative solutions.

Education:

- Degree in Computer Science - Universitat Oberta de Catalunya (UOC) | 02/2025 - PRESENT
- Full Stack Engineering course - CodeCademy | 11/2023 – 9/2024
- Professional Diploma in Full Stack Software Development - Code Institute (CI UCD) – University Accredited by the University of West Scotland and UCD | 09/2022 – 08/2023
- Degree in Archaeology - University of Barcelona (UB) | 09/2017 – 06/2021

Work history:

- **Part time Software Development Consultant:** Gravitas | 02/2025 - Present
 - Reviewed project reports to identify weaknesses and areas for improvement.
 - Provided detailed feedback to enhance software efficiency and performance.
 - Recommended alternative solutions to optimize or replace software components.
 - Conducted comprehensive analysis of backend systems to ensure functionality and scalability.
- **Customer Service:** Premium Travel Club (Dublin) | 04/2022 – Present
 - Managed reservations through the Navision system.
 - Processed online payments.
 - Provided general information and resolved customer issues.
 - Maintained customer records.
- **Floor Staff:** The Celt (Dublin) | 11/2021 - 03/2022
 - Organised table assignments using a program.
 - Issued accurate customer receipts.
 - Managed reservations in the system.
 - Attended to table needs.
- **Customer Service:** Sagrada Familia Cathedral (Barcelona) | 10/2019 - 12/2020
 - Issued tickets for tourists.
 - Conducted cathedral tours.
 - Coordinated group tours and time slots.
 - Sold tickets for specific time slots.

Technical Skill set:

- **Languages:** HTML, CSS, JavaScript, Python, SQL
- **Front-End Technologies:** React.js, Bootstrap
- **Back-End Technologies:** Django, MySQL, PHP
- **Version Control:** Git, GitHub
- **Deployment & Hosting:** Heroku
- **Payment Integration:** Stripe
- **Other Tools:** Agile methodologies, RESTful API development

Portfolio Projects:

1. **Gazetteer:** A project to display world information.
Technologies used: HTML5, CSS3, Bootstrap 5, MySQL, PHP, JavaScript.
Highlights: Built an intuitive user interface for real-time information using a multitude of APIs.
2. **Blackjack21:** Engaging website presenting a game of Blackjack 21.
Technologies used: HTML5, CSS3, JavaScript.
Highlights: Developed game logic using JavaScript, ensuring smooth user interactions and a responsive design across devices.
3. **Surprise Tours:** Dynamic front and back-end app simulating a travel agency where customers can book tours, register, and leave reviews.
Technologies used: HTML5, CSS3, Python, JavaScript, SQL, Django, Stripe.
Highlights: Implemented secure authentication, booking, and Stripe payment integration; built user reviews functionality for better customer engagement.
4. **Reddit Archaeo:** An application that allows the user to see all archaeology related articles and set their favourites, as well as leave notes on them.
Technologies used: HTML5, CSS3, Bootstrap 5, JavaScript, React.
Highlights: Integrated an external API for real-time article fetching, allowing users to interact with content and manage personal favourites.
5. **Decipheroo:** A JavaScript app that allows the user to encode a message of their own choosing and send it to someone to decrypt later.
Technologies used: HTML5, CSS3, JavaScript.
Highlights: Developed custom encryption and decryption algorithms using JavaScript to enable communication between users.

Additional Information:

- **Awards:** 2nd Place in a Hackathon. Collaborated with a team of developers to build a project within a tight deadline, showcasing problem-solving and teamwork.
- **Soft Skills:** Communication in teamwork and customer facing, adaptability to new environments and challengers, ability to quickly adapt to new technologies and strong problem-solving skills, demonstrated through hackathons and coding challenges.
- **Languages:** Fluent in English, Catalan and Spanish. Currently learning portuguese.
- **Hobbies:** Team sports (Brazilian Jiu Jitsu), running, learning languages (currently studying portuguese) and reading.
